

Table of Contents

Preface.....	v
Acknowledgments.....	vi
Balloon Ride Revisited.....	1
Creating an Environment for Learning.....	2
Questions That Promote Mathematical Thinking.....	4
How Is My Child Doing in Math?.....	6
Working With Your Child’s Teacher.....	9
Sample Activity Page.....	12
Create a FAMILY MATH Kit for Home.....	14
Probability and Statistics Introduction	16
Birthday Graph.....	18
Sandwiches.....	20
Snail Races.....	22
Zoo Game.....	24
Grandmothers.....	27
Lost in Space.....	28
Ice Cream Cone Math.....	30
About Your Height and More.....	32
License Plate Explorations.....	34
Algebraic and Logical Thinking Introduction	38
A Penny Saved.....	40
Stairway to Seven.....	42
No Twin Nim.....	44
Circular Nim.....	46
Odd and Even Ended Nim.....	47
Up the Down Staircase.....	48
Baseball Cards.....	50
Paths and Ponds.....	54
Patios and Paths.....	57
Grampa’s Coins.....	58
Royal Family Puzzle.....	62

Table of Contents

Number Sense Introduction	64
This Is Six.....	66
Clean Your Plate!.....	68
Beaded Braids: Investigating Patterns and Ratios.....	70
FAMILY MATH on the Go.....	74
Box Math Addition and Subtraction.....	76
Consecutive Sums.....	82
Bean Boxes.....	84
Doubling Bean Boxes.....	86
Loopy Lou I.....	88
Loopy Lou II.....	90
Two Coin Problem.....	92
Box Math Multiplication and Division.....	94
Family Garden.....	100
Family Garden Game.....	104
Geometry Introduction	106
Sidewalk Math Using Sidewalk Chalk Introduction.....	108
Line Segments and Intersections.....	110
Me and My Shadow.....	112
Body Trace.....	114
It All Adds Up!.....	115
Value Line.....	116
Name Game.....	118
Dot to Dot.....	120
Line Symmetry.....	122
Many Faces of a Cube I.....	126
Many Faces of a Cube II.....	128
Measurement and Estimation.....	130
Spaghetti Geometry.....	132
Matting Pictures.....	136
Organizing a FAMILY MATH Class Series.....	142
What Mathematics Is Taught in Grades K–6?.....	160
Masters for Charts, Graphs, and Spinners	174
Other Resources.....	183
Bibliography.....	185
Index.....	186
